

SCOPE STEAM Enrichment

Fall STEAM Ahead

Autumn Arts & Crafts

Oct 21, - Nov 22, 2024

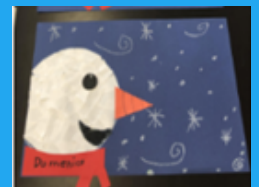

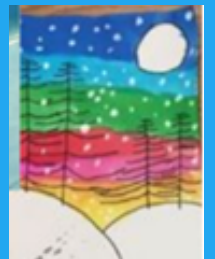

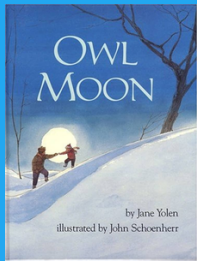

It's FALL STEAM ahead with LEGO Gear Bots and Autumn Arts & Crafts! Kids will build kinetic models of a pterodactyl, yeti and an octopus that move using gears. Explore the beautiful autumn season while learning & creating Fall masterpieces!

Winter Exploration with Books & Bots

Jan 13 - Feb 28, 2025

The wonderful world of winter will be explored through 6 weeks of STEM activities, books and bots. Students will use motors, circuits and engineering to build a mini robot, aircraft, conveyor belt and ferris wheel. Winter books aligned with arts & crafts will be a part of daily lessons.

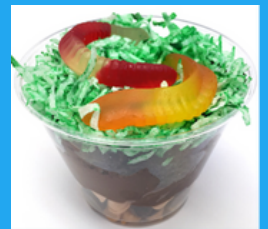

SPRING into STEAM

Edible Experiments & Robotics

Mar 10 - April 11, 2025

Spring Into STEAM with Robotics and Edible Science! Students will be proud of building their own robot, reptile, car and bubble machine. Additionally, we will learn about & create our wonderful world through Edible Science.
